Professional Summary

- Pre-final year **B.Tech** student in **Computer Science and Business Systems** with hands-on experience in **MERN-Stack development**, cloud-based deployment, and real-time web applications. Skilled in **JavaScript, React.js, Firebase, REST APIs**, and database-driven systems.
- Built **authentication-enabled**, role-based, and AI-assisted applications through internships and academic projects. Seeking a **software engineering** internship to apply **problem-solving** and **development skills** in real-world systems.

Skills

Programming Languages: Java, C/C++

Frontend: React.js, HTML5, CSS3, Javascript.

Backend: Node.js, Express.js, REST APIs.

Databases: Firestore, Mongo DB, MySQL.

Cloud & DevOps: Firebase, Cloudflare, Git, GitHub.

Relevant Coursework: Authentication Systems, Encryption, OOP, DBMS.

Experience

NLC India Limited · 2 weeks

Aug 2025

Web Development Intern

- Developed an **E-Notice Board Management System** using React JS.
- Collaborated and implemented **CRUD** operations for **Township Administrators**.
- Designed **read-only** access for end users. Integrated **bilingual translation** using translation API.

Projects

FriendshipQuiz.live

- Developed a **real-time quiz platform** with dynamic content handling.
- Implemented **Firebase-based authentication** and database storage.
- Managed **user sessions** and **interactive UI** components.

TimetableTimer.web.app

- Developed a **real-time timetable management** web application using **Firebase Auth** and **Firestore**.
- Implemented **role-based access control** for students and teachers using secure **Firestore rules**.
- Optimized client-side performance using a lightweight **single-file architecture** without build tools.

Online Exam Proctoring System using YOLO

- Developed an **AI-assisted proctoring** extension using **YOLO-based** concepts.
- Designed a monitoring system for **suspicious activity detection** during online exams.
- Explored computer vision concepts for **real-time exam supervision**.

Education

B.Tech in **Computer Science and Business Systems**

2023 – 2027

Sri Manakula Vinayagar Engineering College, Pondicherry, India.

Certifications

- **Google AI Essential** - Fundamentals of AI concepts and real-world applications.
- **AWS Cloud Practitioner Essentials** - Core AWS services, and architecture.
- **AWS Cloud Foundations** - AWS Cloud technology training badge.

Languages Known

- English, Tamil
